

## Installed Home Workshop Prices

Our range of superior build workshops have been designed to offer a choice of strong, insulated and secure workshops that are fit for your needs and suitable for a variety of locations.

Unlike other workshops, our workshops are not large sheds, but are robust, quality workshops that are built to last, with durability and strength built into the walls, floor and roof. All of our prefabricated workshops are insulated, so that you have a workshop that is suitable for use all year round.

Ideal for a range of practical and creative uses, such as machining and equipment storage and making furniture and pottery, our garden workshops are designed to be installed on concrete or strong paved areas and can safely accommodate ride-on lawn mowers, workbenches, fixed machinery and motorbikes.

Our workshops are built using the SIPs system that we manufacture at our purpose-built facility using the highest quality materials. This cost-effective, sustainable method of construction delivers versatility, strength and longevity.

**Executive Home Workshop  
from £17,742 (inc. VAT)**

The Executive Workshop combines well-proportioned space with style to create a light-filled, attractive workroom. This versatile garden workshop is ideal for a variety of uses, from storing equipment to enjoying hobbies and projects.

This home workshop is both stylish and practical and is suitable for a variety of locations. It has been designed, built and installed to last, with strength and durability in the walls, floor and roof. As with all of our workshops, it's insulated, so that you have a robust and secure workshop that can be used throughout the year.

The Executive Workshop has been designed to be installed on concrete or strong paved areas and can safely accommodate ride-on lawn mowers, work benches, fixed machinery and motorbikes.

It is available in a range of sizes and a choice of three claddings, so that you can choose a workshop to suit the style and size of your home, as well as your needs.
